

Randolph Evans

1995 - 2012

Director of Guidance Guidance Counselor

A constant presence on the WMC campus, Mr. Evans has been regarded by many as a pivotal guiding influence in their time at WMC. A man of great vision, Randy spear-headed the REACH program, Project Adventure, and the Winter Semi-Formal as indelible student-centered activities. Other contributions include the redesign of schedules, development of excellent articulation program, and a formative transition process for 9th grade students. As a school leader he was integral in the positive school culture that thrived throughout his tenure.

Perhaps his great contribution is the unmeasurable impact he made on the students of WMC. His easy-going approach and welcoming nature inspired generations of graduates to achieve their fullest potential both academically and personally.
